

Organizational Announcement

Magnetic Seal Corp. (MAGSEAL) of Warren, RI is pleased to announce that **Joseph (Joe) Feula** has joined the company as **Global Aerospace Business Development Manager (NE Regional Sales)**. Joe joined the MAGSEAL Leadership Team on March 27, 2017 and reports directly to the President, Robert A. Garde, Jr.

Prior to joining MAGSEAL, Joe held various product and sales positions at EATON Aerospace Group in Rhode Island including Global Sales Manager for Dynamic Seals, and more recently, their America's Aftermarket Product Sales Manager – managing sales of dynamic seals, static seals and ducting systems.

Joe started his professional career as a Mechanical Engineering intern within Eaton's Engineering Coop Program. Following his graduation from Worcester Polytechnic Institute with a Bachelors degree in Mechanical Engineering (2009), Joe worked at General Dynamics and Precision Cast Products Structural Division. Joe has a Masters degree in Business Administration in International Business from Bryant University (2015).

Magnetic Seal Corp. is a manufacturer of precision magnetic and spring loaded mechanical carbon seals. Established in 1954 and privately held, MAGSEAL maximizes system reliability on critical systems in the aerospace, automotive, marine, nuclear and industrial markets. For more company information access their website at www.MagSeal.com or Sales@MagSeal.com as well as through social media.
